Câu hỏi **1**

Đúng

Đạt điểm 10,00
trên 10,00

Read the paragraph and choose the irrelevant sentences.

(1) Smoking cigarettes can be an expensive habit. (2) Smoking is hazardous to your health. (3) Considering that the average price per pack of cigarettes is 75 cents, people smoke two packs of cigarettes a day spend \$1.50 per day on their habit. (4) At the end of one year, these smokers have spent at least \$547.50. (5) Several years ago, a medical study clearly showed the link of nicotine found in cigarettes with the development of cancer. (6) However, the price of cigarettes is not the only expense cigarette smokers incur. (7) Since cigarette smoke has an offensive odor clothing, stuffed furniture, and carpet, smokers often find that these items must be cleaned more frequently than nonsmokers do. (8) Although it is difficult to estimate the cost of this additional expense, one can see that this hidden expense does contribute to making smoking an expensive habit.

(Adapted from Smalley, R.L., Ruetten, M.K., & Kozyrev J. R., 2001)

Write the number of irrelevant sentences in the box below. Do not put the full stop (.) at the end of your answer. The numbers will be separated by the comma (,) and a space after the comma.

For example: 1, 3, 7

Câu trả lời: ✓
